Policy document

This policy is binding to all stakeholders of the institute, every part of infrastructure and various activities undertaken by the institution. It will help us to embed efficiency and environmental awareness into everyday activities. Hence it will help to conserve natural resources and to limit its usage.

DBHCoA conducts awareness programmes for environment and energy usage.

Policy objectives:

- To conduct awareness programmes for environment and energy usage.
- To install LED lights, BDLS fans in classrooms, studios, cabins, staff rooms, etc.
- To install motion sensor lights in passages.
- To implement a tree plantation drive.
- To circulate notice for vehicle free campus to reduce noise and air pollution.
- To provide information and training programmes for energy saving measures.
- To offer opportunities for employees and students to engage in initiatives which contribute to environmental protection.
- To engage in dialogue with local authorities, municipal corporations, NGOs to work in areas of environment, energy efficiency and sustainable development.
- To reduce the use of single use of plastic, thermocol.
